## Organizing Committee

A. Lubiw (University of Waterloo)  
D. Rappaport (Queen's University)  
J. Urrutia (University of Ottawa)  
S. Whitesides (McGill University)  
D. Wood (University of Western Ontario)  
C. Wang (Memorial University of Newfoundland)

## Foreward

The Fourth Canadian Conference on Computational Geometry was held August 10 - 14, 1992 at the STEL Battery, St. John's, Newfoundland. This conference followed the tradition of the previous three, in that a friendly forum for presentation of new ideas and collaborative works in the field was provided.

This volume contains 60 contributed papers, three invited lectures, and two workshop (problem/solutions) sessions.

The organizing/program committee thank all speakers and attendents for their enthusiastic response - their participation was the essential ingredient required for the success of the conference. We also gratefully acknowledge financial support from the Office of the Dean of Science and the Department of Computer Science of Memorial University of Newfoundland, and the Natural Sciences and Engineering Research Council of Canada. Finally we thank Tom Shermer and Godfried Toussaint for providing valuable information and the staff of the General Office, Elaine Boone, Jennifer Button, Sharon Hynes and Patricia Murphy, for their help in organizing the conference.
